

MyRListFunc::addOne

```
graph LR; A[MyRListFunc::addOne] --> B[RcppFunction::appendToRList]; A --> C[RcppFunction::clearProtectionStack]; A --> D[RcppFunction::listCall]; A --> E[RcppFunction::setRListSize];
```

The diagram illustrates a central function, `MyRListFunc::addOne`, which is highlighted with a gray background. Four blue arrows originate from the right side of this central box and point to four separate white boxes on the right. These boxes represent different methods of the `RcppFunction` class: `appendToRList`, `clearProtectionStack`, `listCall`, and `setRListSize`. The arrows indicate that the `addOne` function calls each of these four methods.

RcppFunction::appendToRList

RcppFunction::clearProtectionStack

RcppFunction::listCall

RcppFunction::setRListSize
