ICESI is an university where both students and professors work energetically with open minds in a passionate language rich and diverse in its expressions.

We aim to continue strengthening our International ties.

Who we are / About Us

ICESI is a private, non-profit university, founded in 1979 by key business leaders of the region.

Representatives of these founding organizations continue to serve on The Council of Trustees and the Board of Directors.

“The excellent quality of Icesi University is evidenced in their academic programs, extracurricular activities, dedicated professors and students who are in stride with the best international universities. The conclusion I reached after my year of studies at Icesi University is very positive, for I lived a unique experience which was enriched by getting to know a culture so rich and so different from our own.”

Where we Are

Icesi University is located in one of the most prosperous regions of Colombia: The Cauca Valley. Colombia is regarded as the second most bio-diverse country on earth. Icesi is fortunate to be located close to the tropical beaches and jungles of the Pacific region that hosts much of this astounding flora and fauna.

"Icesi University is just as surprising as the country where it is located. I strongly recommend any international student to consider ICESI as an opportunity to experience a unique environment with excellent professors, great academic resources and a very friendly atmosphere that will make any foreign student think of Colombia as a new home."

Antonio Miranda
Business Administrator
Sao Paulo University

Creativity

Education Model

The University is committed to forming independent minded graduates who can evaluate and solve complex issues in an intelligent manner.

Our education process stimulates our students to consider the nuances and diversity or life. We encourage our staff and students to develop an awareness of society and a responsibility for the future of the world around us.

Research

• We have specialized research groups comprising full-time professors, part-time professors, students and teaching assistants.
• Thirteen of our research groups have been honored with special recognition by Colciencias (Instituto Colombiano para el Desarrollo de la Ciencia y la Tecnología, Colombian Institute for the Development of Science and Tecnology).

• In the last twelve months no less than 52 different research initiatives were launched within our faculties.

**Managerial Creativity:**

Pillar of Icesi Formation

• In 1985 Icesi began a Center for the Development of Managerial Spirit, CDEE—the first of its kind in Colombia

**International Professionals**

• Icesi strongly promotes the study of the other languages, cultures and countries to prepare our graduates to compete internationally.

“The daily life of an Icesi University student is marvelous, I can’t imagine a more sympathetic or beautiful life than the Colombian one. The people are friendly and positive. Considering the cultural variety, the constant historical movement of the country, the language, the music, the climate, the vegetation, the biodiversity and scenery, I am simply mute and don’t have the appropriate words to express what a year’s study at Icesi University meant to me; my heart beats for Colombia.”

Anne Swierzy
Mannheim University
Germany

**Linking to Business**

Icesi was founded in 1979 with the purpose of producing excellent business professionals. The ongoing investment in the campus and facilities continues to provide a strong platform for advanced business studies and superior business graduates. The Council or Trustees and board of Directors are comprised of regional business leaders.

**Continuous Education and Consulting**

Icesi offers Continuous Education Programs ranging from training, business analysis and strategy consulting.

“I am in Cali, Colombia, for my internship of AIESEC at Icesi University. I enjoy working everyday in the Department of Economics and International Business with people with an international background, spending my time with energetic, passionate and hospitable young people.”

Tim Po
Student from Hong Kong
“My semester at Icesi was wonderful, I don’t know how else to describe it. Icesi was very helpful with figuring out my schedule, my class times - most anything I needed and, most importantly, helping improve my Spanish which will help me greatly with my future career. It is an excellent, beautiful university where I believe you can get a good education and make great friends for the rest of your life. As for the social aspect of my time in Cali, I loved it.”
